Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Action is in response to the amendments filed on 5/23/2007.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22, 25-41, and 43 are rejected under 35 U.S.C. 102(b) as being anticipated by Brix (US 1,513,367).

Brix discloses a planar front side member (17) and backside member (17a), a connector (10), a clamp adjusting mechanism (15 and 15a), and an angularly moveable receiving portion (18); a positioning member (12); the connector slot (21); anchoring slots (22); corresponding engagement structure (the slots can engage 13 and 13a on the positioning member); front and backside apertures (19 and 19a). The Examiner considers the parts integral because they are all part of the same device. The other language in the claims is merely functional, and Brix's device is capable of performing the intended function.

Response to Arguments

Applicant's arguments with respect to claims 22 and 33 and their depending claims have been considered but are moot in view of the new ground(s) of rejection.

The Applicant has made arguments regarding the prior art cited in the previous action. The current reference meets the structural limitations of the claims. The functional limitations are met by the prior art because the prior art is capable of performing the claimed functions. The intended use of the prior art is not relevant to the claimed structure. Also, the Examiner notes that claim language such as "angularly moveable receiving portion" is broad and suggests that a part of the device must be able to be moved along an angle. Further description of the structure of the claimed "portions" is recommended to overcome the prior art.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
